

The problems we face today,
violent conflicts, destruction of nature,
poverty, hunger and so on,
are human-created problems
which can be resolved through
human effort, understanding and the development
of a sense of brotherhood and sisterhood.
We need to cultivate a universal responsibility
for one another and the planet we share.

HIS HOLINESS, THE 14TH DALAI LAMA
Nobel Peace Prize Acceptance Speech, 1989

Faith Fest Owensboro is a cooperative effort of local faith communities that seeks to:

- Offer opportunities to learn about each other's beliefs, spiritual practices, Scriptures, and traditions with time for questions and conversation
- Invite each other into our faith homes for fellowship to share our love of our sacred spaces
- Offer opportunities for prayer and worship—with explanations to assist a visitor or inquirer in at least understanding the practice intellectually
- Open the door for and grow interfaith friendships

Each year, different communities make offerings; every year we grow richer for the experience! Come join us~
